

## **Associate Scientist - Protein Sciences**

Seismic Therapeutic, a biotechnology startup focused on the intersection of structure, protein engineering, machine learning and immunology, is seeking an experienced and motivated Associate Scientist to help drive novel immunotherapy programs.

**About Seismic:** Seismic is determined to help patients with unmet need by integrating machine learning, structural biology, protein engineering, and translational immunology to generate clinic-ready drugs. At our core, we are focused on phenomenal science, supportive culture, a superstar team, meritocracy, and patient-centric goals. Seismic has the tools, skills, ideas and people to make this a reality. Success will be the discovery and development of effective therapies for patients in need, and we invite you to become a part of that.

### **Responsibilities:**

- Perform protein expression, purification, and quality control of fusion proteins and antibodies
- Assist in establishing and carrying out a wide variety of assays to assess biochemical/biophysical properties and developability characteristics of experimental therapeutic molecules
- Conduct protein engineering processes to improve the characteristics of experimental therapeutic molecules
- Carefully document research and effectively communicate results to relevant team members

### **Who You Are:**

- Intellectually curious with a passion for exploring new approaches for better and faster structure determination and rational design
- Bold in proposing creative experimental designs and ideas, relentless in pursuing successful outcomes
- Driven and conscientious, thrives in a fast-paced, entrepreneurial environment
- Passionate about improving patients' lives

### **Qualifications:**

- Bachelor's or master's degree in Biology, Biochemistry, or related field
- Hands-on protein biochemistry experience

As a member of our diverse and growing team, you'll help shape Seismic into a company that takes its scientific mission seriously while providing a positive and supportive workplace environment and culture. With your insights, passion and talent - we'll bring novel therapeutics to the patients who need them the most.

*Seismic Therapeutics is an equal opportunity employer. We will not tolerate discrimination on the basis of race, color, national origin, sex, sexual orientation, gender identity, religion, age, disability, veteran's status, pregnancy, genetic information or on any basis prohibited by federal, state or local law.*
