

## **Clinical Research Project Manager**

### **Company Overview**

Vedanta is pioneering the development of a new class of therapies that act by modulating the human microbiome. Modulation of the human microbiota holds enormous promise to treat a broad range of immune and infectious diseases in ways that are completely different to existing drug classes. Breakthrough discoveries of our scientific team in the field of mucosal immunology have led to the first rationally designed drug candidates in the microbiome field. Vedanta was founded by PureTech Ventures and a team of world renowned experts in immunology and microbiology.

### **Position Description / Responsibilities**

Vedanta is looking for a talented project manager to coordinate interactions with key clinical investigators and with CROs. The individual will be responsible for the identification of appropriate clinical sites, establishment of agreements, coordination of communication and collaborative activities between clinical sites and the company; coordination and monitoring of progress in keeping with specified timelines and preparation and communication of updates on a regular basis; will work closely with internal research scientists, regulatory and legal advisors and will coordinate interactions with clinical investigators, clinical experts, clinical research organizations and health authorities; in conjunction with clinical partners, will ensure appropriate documentation is maintained at clinical site and provided to Ethics Committees and Health Authorities functions; and will contribute to and review documentation including clinical sample procurement protocols, consent forms, clinical studies, study reports; scientific abstracts and/or manuscripts and regulatory documents as required.

### **Qualifications**

- Sc. in microbiology, immunology or similar discipline with 7 + years' experience
- Candidates with an M.B.A. and/or formal management training preferred.
- Excellent organizational skills and ability to manage aggressive timelines effectively through cross-functional planning
- Excellent communication skills and experience with effective management of professional relationships with clinical sites, investigators, clinical operations and CROs
- Entrepreneurial and self-motivated work style.

If you are interested in applying for this position, please send resume and cover letter to [info@vedantabio.com](mailto:info@vedantabio.com).
